

CLEAN 38

INDUSTRIAL VACUUM CLEANERS FOR GENERAL CLEANING

PRACTICAL HANDLE

STORAGE COMPARTMENT

STEEL CLEANING KIT

CLEAN 38

The 38-liter industrial vacuum cleaners of the Clean line are the most compact and easy to handle of the entire iVision range and were created to facilitate the cleaning of companies and production plants. The CLEAN range is equipped with a fairing, which covers the motor and the blower. Thanks to this fairing the mechanical parts are protected from dust and dirt and better preserved over time. In addition, the CLEAN 38 vacuum cleaner is equipped with a practical storage compartment that facilitates and further speeds up the cleaning operator's activity. The low noise level, the compact dimensions, the ease of use and the high suction capacity are the main features of CLEAN 38 industrial vacuum cleaners.

STANDARD SUPPLY FEATURES

- Side channel blower with power up to 3 kW
- 50mm steel cleaning kit
- Ergonomic storage compartment
- Anchoring system of the cleaning kit
- Structure made completely of steel
- Non-marking swivel wheels with parking brake
- Class M polyester bag filters
- Detachable container with wheels
- Tank capacity: 38 liters
- Silencer to reduce noise level
- Filter shaker with integrated pneumatic motor
- Motor overload protection
- 8mt electric cable
- Use and maintenance manual
- CE certification

CLEAN 100

INDUSTRIAL VACUUM CLEANERS FOR GENERAL CLEANING

TANGENTIAL SUCTION INLET

STORAGE COMPARTMENT

STEEL CLEANING KIT

CLEAN 100

The 100-liter vacuum cleaners of the CLEAN line have a high suction capacity and are used for general cleaning or for the intensive collection of dust and chips generated by machine tools within the production departments of industries.

The CLEAN range is equipped with a fairing, which covers the motor and the blower. Thanks to this fairing the mechanical parts are protected from dust and dirt and are better preserved over time. Moreover, the CLEAN 100 vacuum cleaner is equipped with a practical storage compartment that facilitates and further speeds up the cleaning operator's activity.

The low noise level, the compact dimensions, the ease of use and the high suction capacity are the main features of CLEAN 100 industrial vacuum cleaners.

STANDARD SUPPLY FEATURES
